We care about your privacy

We and our partners store and/or access information on a device. Cookies, device or similar online identifiers (e.g. login-based identifiers, randomly assigned identifiers, network based identifiers) together with other information (e.g. browser type and information, language, screen size, supported technologies etc.) can be stored or read on your device to recognise it each time it connects to an app or to a website, for one or several of the purposes presented here.

With your consent, your data can be used for the following: Personalised advertising and content, advertising and content measurement, audience research and services development; Precise geolocation data, and identification through device scanning.

Your personal data will be processed and information from your device (cookies, unique identifiers, and other device data) may be stored by, accessed by and shared with 196 partner(s), or used specifically by this site or app. Some vendors may process your personal data on the basis of legitimate interest, which you can object to by managing your options below. You can withdraw your consent at any time in your privacy settings.

36 volt li-ion battery

Let's Start Design Your Battery!

WE ARE READY FOR YOUR NEXT PROJECT

Please try to answer our following questions, OR Call Us

1 What kind of product will the battery used for? please send us product pictures and specifications
2 What's the device voltage and current and if possible
3 How long would you like the device to be used before next charging
4 How much space do you have for the battery?
5 Any special shape requirement? Triangle? Ultra thin? Ultra small? Arc shape? Curved?
6 What's your application work condition? Temperature outdoor or indoor, moving or stay still?
7 What's the quantity you need?
